

Bernalillo County Community Profile

Introduction

This profile describes the current health status of the county. With this information, the community can complete an assessment and begin to address specific issues and set goals for health improvement

The data in this report is drawn from standard sources most of which are available from the NM Indicator Based Information System (IBIS) for Public Health operated by the New Mexico Department of Health. Data from the US Census, state birth and death files, Youth Risk and Resiliency Survey, as well as official population estimates are available on this site.

This report provides selected indicators for each county and comparison to the state as a whole. Here we provide only basic indicators. When a county chooses to address an issue or problem, residents and health councils can work with the regional DOH epidemiologists and health promotion team to gather additional data. For example, if a county decides to take on deaths due to motor vehicle crashes, they will want to find out more about the location of crashes, types of vehicles, and involvement of alcohol.

Trends: For many of the indicators, trends are presented. The DOH has been using the Results Based Accountability and Turning the Curve methods for planning and priority setting which are based on trends.

Small Numbers: The population density of many New Mexico counties is quite low. This means that in a single year the number of deaths is small and often quite variable from year to year. The trends in this report (except for counties with large populations) are shown as averages of three years: 2001-2003, 2004-2006, 2007-2009, 2010-2012. Even then, sparsely populated counties will not have enough births or deaths to report or see a trend. For example, Hidalgo county reported only one infant death from 2006-12. Even when events are more common, there may not be enough to break rates down by age, sex, or race/ethnicity.

Rates: Most data included here are shown as rates and/or counts. A count is simply how many events occurred in a given time. A rate is the number of events in the time period divided by the population at risk for the event multiplied by a number like 100, 1000, or 100,000. Rates can be when the multiplier is 100, we have a percentage. For example, a measure of poverty might be the number of households in a county whose income is below the federal poverty line divided by then total number of households multiplied by 100 (392 households in poverty/1824 households =392/1824 * 100 =21.5%).

Rare events, such as deaths for a particular (rare) cause, require multiplying by a larger number to get a whole number. If there were 9 cases of cancer in a population of 4834, $9/4834=.0018622$. But when we multiply that by 100,000 we get 186.2 per 100,000 people, an easier number to imagine. Death rates are conventionally reported per 100,000 people in the population, but you will see that Female Breast Cancer is reported per 100,000 women. Births are more common, so they are reported per 1000 people; a fertility rate is even more specific the number of live births per 1000 women of child bearing ages.

Finally, when we compare county death rates, there is an additional issue. The population of a county with a younger population will have a different set of causes of death than an older population. We expect there to be more heart attacks and falls in a county with a large proportion of the population over 60 and more bicycle crashes where the population is under 20. In order to make the counties comparable, we calculate the rates as if they occurred in a standard population. You do not have to know how this is done, just that when you see “Age Adjusted Rates” it means that the rate has been calculated to allow valid comparison across different populations. One more detail: if we compare specific age groups in different counties, no adjustment is required because we are looking at the same age-defined segment of the population in each county.

Purpose of this Profile

This profile is provided to assist county councils and other organizations as well as citizens and policy makers to assess the health of their county population. This information is presented as simply as possible so that people who are not health professionals can see a difference between their community and the state as a whole and begin the process of planning for better health.

Organization of this report

Basic demographic and economic information is provided in *Quick Facts*. Population by age and sex is shown as a table and population pyramid graphic. The NM Dept. of Health commissioned an analysis of the undercount of Hispanics and minorities by UNM Bureau of Business and Economic Research (BBER). The result was a new set of population estimates that have been integrated with the IBIS data bases

Health is related in complex ways to education, so we report on graduation rates in *Education* by gender, race/ethnicity and economic disadvantage. Where a county is served by more than one district, graduation rates are given for each district. Graduation data are from the NM Public Education Department web site.

Risk and Resiliency are measures that either predispose a population to poor health or protect them and promote good health. These measures come from two surveys: the Behavioral Risk Factor Surveillance Survey (BRFSS) managed by the Department of Health and the Youth Risk and Resiliency carried out in schools and managed by the UNM Prevention Research Center.

Chronic Disease The leading causes of death from chronic diseases are shown as trends and where population is sufficient by race/ethnicity. Trends for chronic disease are three year averages beginning in 2001 and ending in 2012. In counties with the lowest population, even combining three years, often does not produce stable rates.

Injury Deaths due to leading types of injuries, motor vehicle, suicide, falls and all injuries are shown Deaths due to poisoning are shown. The main component of poisoning is drug overdose deaths.

Births Total births, births by mother’s age and ethnicity are included here. Infant mortality is also shown in this section.

A final section summarizes health resources available in the county.

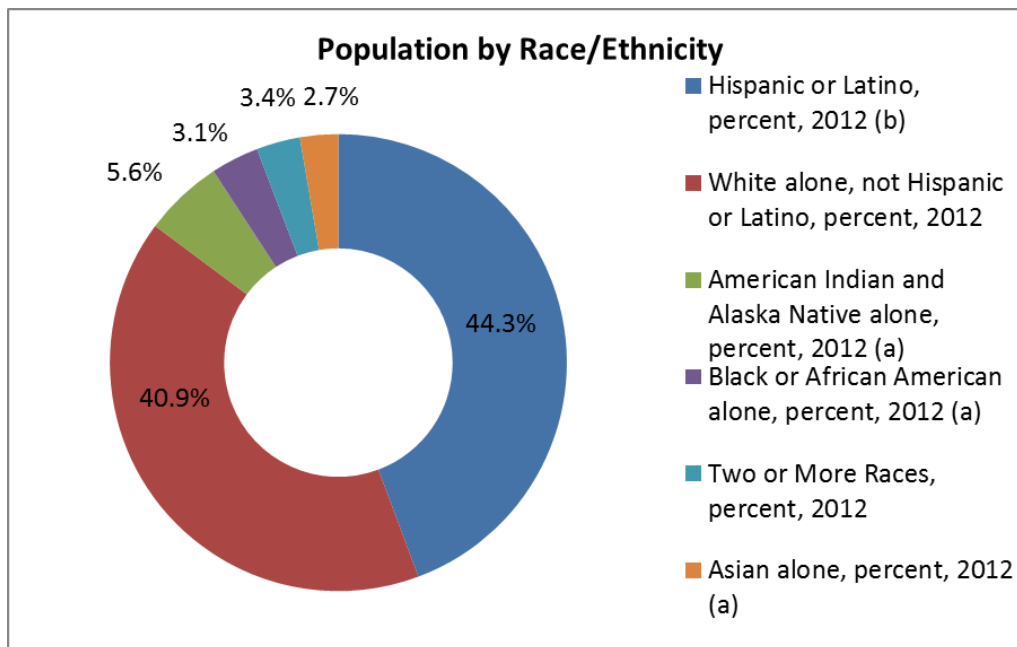

Population

The population of Bernalillo County in 2013 is estimated at 674,221. The population has grown 1.5% since the 2010 census.

The 7% of the population is less than 5 years old, 13% is over 65

44% is of Hispanic Origin

11% Foreign-Born. 31% speak a language other than English at home.

(a) Includes persons reporting only one race.

(b) Hispanics may be of any race, so also are included in applicable race categories

These data are from the Census Quick Facts,

Housing

In 2012, there were 285,859 housing units in Bernalillo County; 25% were multi-unit structures; 64% of housing units were owner-occupied. The median value of an owner-occupied home in 2012 was \$190,000. There are (an average) of 2.47 persons per household.

In 2013, 1,273 homeless individuals were identified in the Point in Time survey.

Source NM Coalition to End Homelessness. 2013. Point in Time Count Results.

<http://nmceh.org/pages/homelessnessReports.html>

Income and Poverty

Average per capita money income (2008-12) is \$26,638 and median family income is \$48,398. 17% of the population lives below the poverty line. (20.1% ACS 2012) The unemployment rate (2012) was 7.1%. This is the proportion of the work force that is unemployed and looking for work. The poverty level varies by family size, a family of four the rate was \$23,050 in 2012.

Education and Language

87% of those age 25 and above have a high school education or higher; 32% have a bachelor’s degree or higher. The high school graduation rate in 2010 was 64.7% compared to 67.3% for NM.

In Bernalillo County, 11% of the population are foreign born and 31% of those over age 5 speak a language other than English at home.

These data are from the Census Quick Facts,
<http://quickfacts.census.gov/qfd/states/35/35001.html>

The high school graduation rate for Bernalillo County for Bernalillo County was 69% this is higher than the state average of 67%

Educational Attainment, Bernalillo County, 2008-12		
	Number	Percent
Population 25 years and over	435,547	
Less than 9th grade	24,267	5.6%
9th to 12th grade, no diploma	31,666	7.3%
High school graduate (includes equivalency)	104,166	23.9%
Some college, no degree	104,939	24.1%
Associate's degree	31,913	7.3%
Bachelor's degree	76,242	17.5%
Graduate or professional degree	62,354	14.3%

School Enrollment, Bernalillo County, 2008-12		
	Number	Percent all students
Population 3 years and over enrolled in school	184,592	
Nursery school, preschool	9,409	5.1%

County	Accepted Reports	% Substantiated	Number of substantiated child victims	Child Victim Rate per 1000 children
Bernalillo	5,704	19.3%	1,675	9.4
NM	18197	25%	7788	13.4

Source: 360 Yearly State Fiscal Year 2013, NM Children Youth and Families Department.

http://cyfd.org/docs/360ANNUAL_FY13_1210.pdf

Approximately 9,854 people live in group quarters. These include jails, prisons, nursing homes, and dormitories.

Risk and Resiliency

Risk and Resiliency is measured by a two surveys, the Behavior Risk Factor Surveillance Survey conducted by the NM Department of Health and the Youth Risk and Resiliency Survey conducted by school districts. The YRRS measures are self-reported by the student.

Adolescent Indicators

Measure	Bernalillo	NM
Adolescent Risk and Resiliency Measures		
Ate Five or More Servings of Fruit or Vegetables per Day	21.4%	23.8%
Adolescent Obesity, self-reported BMI above 95th percentile for age and sex	10.0%	12.9%
Youth Smoking Prevalence, percentage of students who smoked cigarettes on or more days in the past month	20.7%	19.9%
Youth with Feeling of Sadness or Hopelessness	29.8%	30.8%
Trusted Adult in the Community	55.4%	55.2%

YRRS Behavioral Health Indicators, Bernalillo County, Trend 2005-2011

YRRS Trust, Food, Obesity Indicators, Bernalillo County, 2005-2011

Bernalillo	2003	2005	2007	2009	2011	avg 2007-11
Persistent sadness or hopelessness	30.4	32.2	29.2	29.6	30.5	29.8
Attempted suicide	12.4	15.1	12.9	9.7	9	10.5
Binge Drinking	33.5	30.8	28.6	24.4	19.4	24.1
Current Marijuana user	23.5	30.5	26.9	32.1	26.5	28.5
Current use of painkillers to get high			12.8	15.2	10.2	12.7
Ever used illegal injection drugs	3.6	5.1	3.6	6	3.1	4.2
Smoker	26.7	26.6	23.7	20.9	17.6	20.7
sexually active	31.4	33.9	30.7	32.7	30.5	31.3
used condom	52.2	54.8	55.8	56.8	61.3	58.0
Trusted Adult in Community	59.6	56.3	57.4	53	55.9	55.4
Five servings of fruit/vegetable per day, past week	16.4	17.2	16.4	24.4	23.5	21.4
Overweight or Obese	19.7	22.8	19.3	23.2	21.6	21.4
Obese	7	10.4	8.5	9.9	11.6	10.0

Adult Risk Factors

Measure	Bernalillo	NM
General Self-Reported Health Status, percentage of adults reporting fair or poor health 2007-10	15.7%	17.9%
Adult Physical Activity, 2005,2007	53.9%	53.0%
Adults Consuming 5 or more servings of fruits and vegetable per day, 2007, 2009	23.4%	23.0%
Obesity Among Adults BMI > 30 2008-10	23.7%	25.6%
Adult Smoking Prevalence 2011-12	17.0%	20.4%

Smoking varies by race, ethnicity and other demographic factors. Smoking prevalence tends to be higher among the poor, mentally ill, and LGBT populations. For example in NM, among household with income less than \$15,000, 34% smoke; with income of \$50,000 or more, the rate is 12%, almost a threefold difference. In 2011, 48% of adults who characterized themselves as bisexual smoked.

Adult Smoking Prevalence by Race and Ethnicity (2011), Age Adjusted	Bernalillo Co	NM
White	21.1%	22.8%
Hispanic	25.3%	22.5%
Black	27.4%	31.1%
Native American	27.8%	20.5%
Asian		9.0%

Leading Causes of Death

Age adjusted rates per 100,000 people

	Bernalillo County			Trend	New Mexico		
	2004-2006	2007-2009	2010-2012		2004-2006	2007-2009	2010-2012
Circulatory, Heart disease	166.8	156.4	145.9		173.6	156.5	148.2
Neoplasm, malignant	159.2	154.7	145.4		158.1	152.2	146.3
Injury, Unintentional injuries	60	63.2	56.1		63.1	63.9	61.9
Respiratory, Chronic lower respiratory diseases	44.4	45.4	42		44.6	46.5	45.1
Circulatory, Cerebrovascular diseases	36.1	39.2	36.8		33.3	34.5	33.5
Diabetes mellitus	24.6	25.1	26.3		31.2	28.9	27.9
Respiratory, Influenza and pneumonia	20.4	15.5	12.6		18	17	14.3
Alzheimer's disease	19.7	18.5	19.2		19.2	18	17.9
Injury, Intentional self-harm (suicide)	16.6	19.1	18.9		18.1	19.6	20.4
Chronic liver disease and cirrhosis	12.7	16.7	16.9		14.8	17.7	18.7

Green Indicates the county rate is better, lower than the New Mexico rate

Leading causes of death for Bernalillo County are shown here compared to New Mexico. The color indicates that the county's rate was better than the state's. The trend shows the shape of the trend for the for three 3 year periods. The trend line shows the direction, but not the scale of the change.

Chronic Diseases

Chronic diseases are conditions that develop slowly, often inconspicuously, and even with treatment affect a person throughout his or her lifetime. Chronic diseases are often the result of lifestyle choices (such as smoking), exposure to environmental pollution or toxins, and genetics (some cancers). Increasingly, overeating and resulting obesity have been cited as causes of many chronic diseases, including diabetes, heart disease, stroke, and some cancers. Chronic diseases is a single cause. The effects of multiple factors are often cumulative, that is, they combine over time to increase a person’s risk.

The death rates shown below are adjusted to make the county and state populations comparable (in terms of ages). The rates are the number of deaths per 100,000 thousand people susceptible to the disease.

Cardiovascular Disease Death Rate

	2008	2009	2010	2011	2012
Bernalillo	41.7	37	43.2	36.6	30.9
NM	38.8	34.7	37.8	32.5	30.4

Lower Respiratory (COPD), Death Rate 2001-12

Lower Respiratory (COPD), Death Rate

	2008	2009	2010	2011	2012
Bernalillo	39.8	42.3	42.2	37.7	32.8
NM	42.3	42.3	41.4	40.1	37.4

Lung Cancer Death Rate, 2008-12

Lung Cancer Death Rate

	2008	2009	2010	2011	2012
Bernalillo	35.9	33.7	32.4	29.1	30.7
NM	35	32.2	33.7	29.6	32.3

Female Breast Cancer Death Rate, 2001-12

Female Breast Cancer Death Rate

	2008	2009	2010	2011	2012
Bernalillo	19.8	19	24.6	18.4	19.5
NM	18.5	21.6	22.8	20.5	17.8

Note: Men can also, though rarely, get breast cancer. Here the focus is breast cancer in women and the denominator is women in the population.

Diabetes Mellitus Death Rate, 2001-12

Diabetes Mellitus Death Rate

	2008	2009	2010	2011	2012
Bernalillo	18.7	20.9	22.7	23.1	19.8
NM	22.8	23.7	25.6	22	22.9

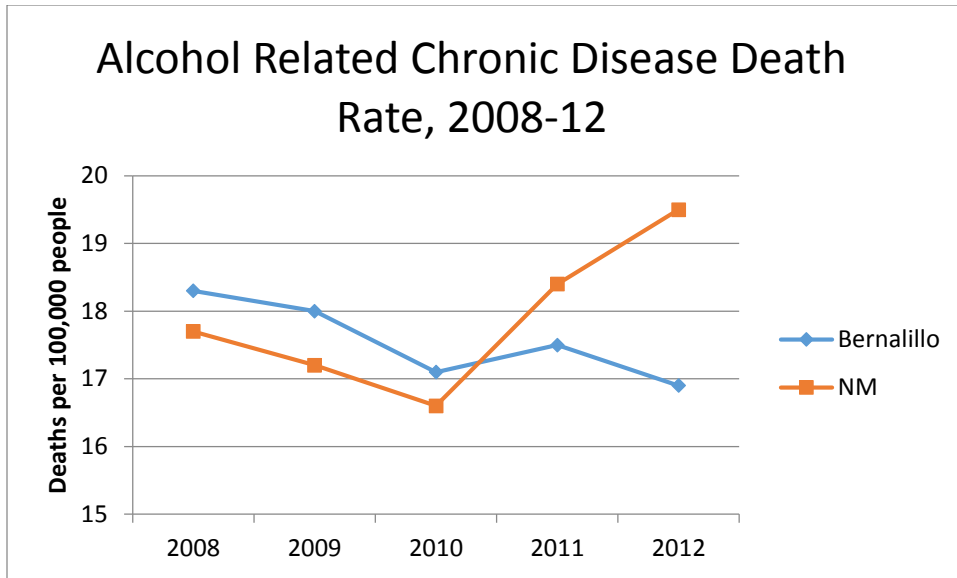

Although diabetes is a disease and a cause of death in its own right, it worsens or increases the risk for many other diseases. Obesity is one of the main risk factors for diabetes.

Cerebrovascular Diseases

	2008	2009	2010	2011	2012
Bernalillo	41.7	37	43.2	36.6	30.9
NM	35.8	34.7	37.8	32.5	30.4

Cerebrovascular disease is commonly called “stroke”. This is one of many diseases whose risk rises with smoking.

Alcohol Related Chronic Disease

	2008	2009	2010	2011	2012
Bernalillo	18.3	18	17.1	17.5	16.9
NM	17.7	17.2	16.6	18.4	19.5

This category includes chronic conditions directly and 100% attributable to consumption of alcohol. Included in this definition from the CDC's Alcohol-Related Disease Impact (ARDI) program (http://apps.nccd.cdc.gov/DACH_ARDI/Info/ICDCodes.aspx): (alcohol) psychosis, abuse, dependence syndrome, myopathy, cardiomyopathy; alcoholic gastritis and liver disease; fetal alcohol syndrome, fetus and newborn affected by maternal use of alcohol, and alcoholic induced chronic pancreatitis. Conditions in which alcohol contributes, either directly or indirectly, to mortality are not included in this measure.

Unintentional Injuries

Unintentional injuries are the third leading cause of death of Bernalillo County Residents

Unintentional Injury Death Rates

Unintentional Injury Death Rates

	2008	2009	2010	2011	2012
Bernalillo	68.7	58.5	53.8	58.1	56.4
NM	65.7	61.1	59.3	62.5	63.9

Motor Vehicle Traffic Death Rates

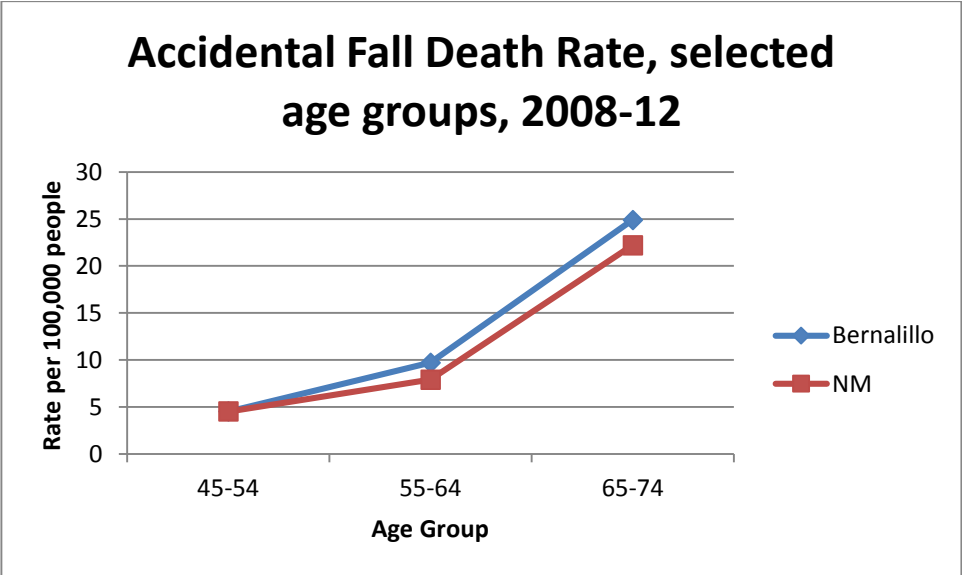

Motor Vehicle Traffic Death Rates					
	2008	2009	2010	2011	2012
Bernalillo	10.5	11.4	11.3	9.3	11
NM	16.8	15.6	14.9	13.7	17.4

Unintentional Fall Death Rates					
	2008	2009	2010	2011	2012
Bernalillo	20.4	16.4	13.2	14.8	14
NM	16.9	15.1	12.9	13.7	13.8

Deaths from falls include primarily elderly people. The average age at death from falls is about 72 years.

Accidental Fall Death Rates by age group				
	45-54	55-64	65-74	75+
Bernalillo	4.5	9.7	24.9	215
NM	4.5	7.9	22.2	181

Suicide Death Rates

	2008	2009	2010	2011	2012
Bernalillo	19.4	18.6	16.8	20.8	19
NM	20.3	18.1	19.9	20.3	15.4

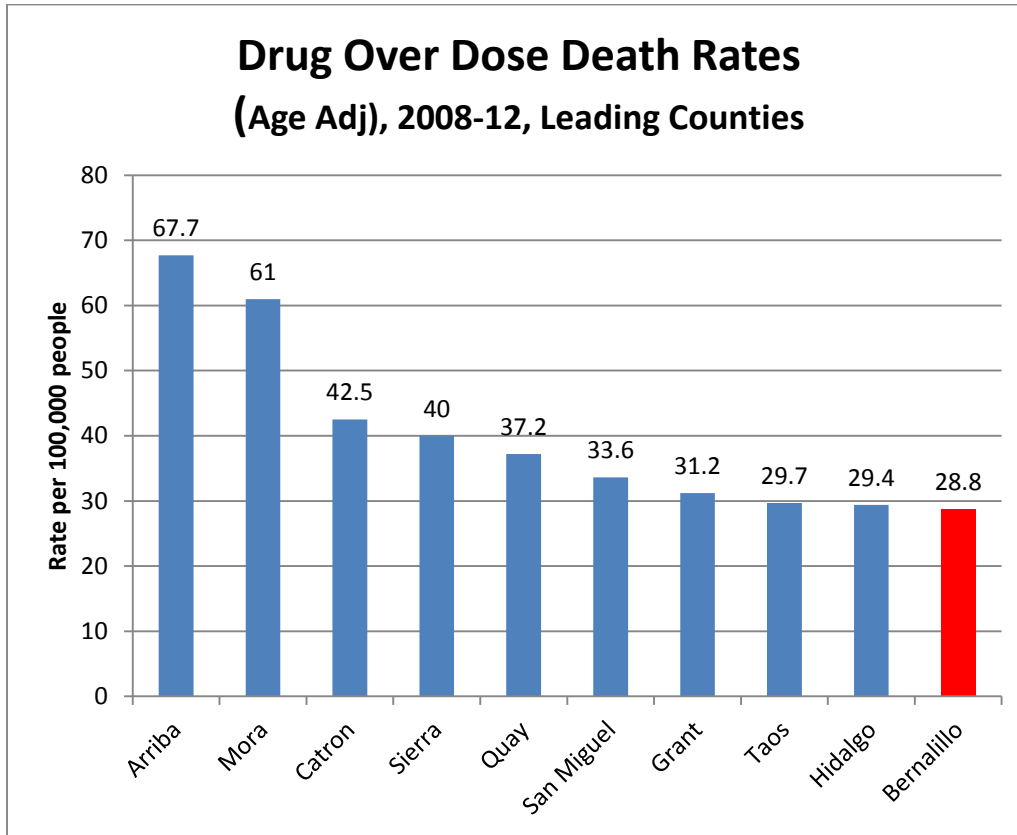

Suicide Death Rates by age group

	0-17	18-24	25-34	35-44	45-54	55-64	65-74	75+	Total
Bernalillo	7.5	42.8	58.3	65.2	71.3	62.6	55.2	274.9	59.6
NM	11.1	53.7	63.4	74.5	75.4	55	56.5	254.5	63.6

Deaths Due to Drug Overdose

In 2008-12 there were 2,416 deaths due to drug overdose in NM, 961 (39%) were in Bernalillo County.

The rates shown for Catron and Hidalgo are not reliable due to small numbers

Bernalillo County drug-induced death rate is above the state average. In five small areas within Bernalillo County, the drug-induced death rate is equal to that of Rio Arriba County.

See https://ibis.health.state.nm.us/indicator/complete_profile/DrugIndDth.html

The main codes for drug overdose are X40-X44, X60-64, X85.

Births and Natality

Number of Births 2008-12

Bernalillo Co Birth Rate	2008	2009	2010	2011	2012
Births	9,416	9,122	8,589	8,385	8,379
Population	641,740	652,152	665,483	672,567	675,550
Rate per 1000	14.7	14	12.9	12.5	12.4
NM Birth Rate	30,154	28,872	27,793	27,251	26,990
Population	2,013,064	2,036,124	2,065,195	2,083,725	2,091,432
Rate per 1000	15	14.2	13.5	13.1	12.9

Number and Percentage of Births by Mother's Age

In 2012, there were county births 8,375 births; 9%, 779, were to women 15-19 years old. This compares favorably to NM, where 12% of births were to 15-19 year olds. The teen birth rates were 16.8 and 21.7 births per 1000 15-19 year old women.

Birth Rates by Mothers Age, 2008-12

	2012		Bernalillo Co		NM		
	Births	Population	Rate	Births	Population	Rate	
10 to 14 yrs	10	43,532	0.2	50	142,772	0.4	
15 to 17 yrs	243	27,787	8.7	998	90,215	11.1

Number and Percentage of Births by Ethnicity

2012	Bernalillo		NM	
	Births	Population	Birth Rate	Birth Rate
Total	8,379	675,550	12.4	12.9
American Indian or Alaska Native	488	28,243	17.3	17.9
Asian or Pacific Islander	292	17,065	17.1	17.9
Black or African American	187	19,491	9.6	10.7
Hispanic	4,772	324,302	14.7	15
White	2,520	286,449	8.8	9.1

Infant Mortality Rate

Infant Mortality Rates, 2008-12						
	Total	2008	2009	2010	2011	2012
Bernalillo: Infant Deaths	231	51	38	41	45	56
Bernalillo: Live births	43891	9416	9122	8589	8385	8379
Bernalillo: Infant Death Rate	5.3	5.4	4.2	4.8	5.4	6.7
NM: Infant Deaths	596	153	145	155	143	56
NM: Live Births	141060	30154	28872	27793	27251	8379
NM: Infant Death Rate	4.2	5.1	5	5.6	5.2	6.7

In Bernalillo County, 2012, there were 56 infant deaths for 8379 births, a rate of 6.7 per 1000 live births. This is the same as the NM rate. Infant mortality, often cited as a general indicator of well-being of a population, has increased since 2010 after improving from 2008-2009.

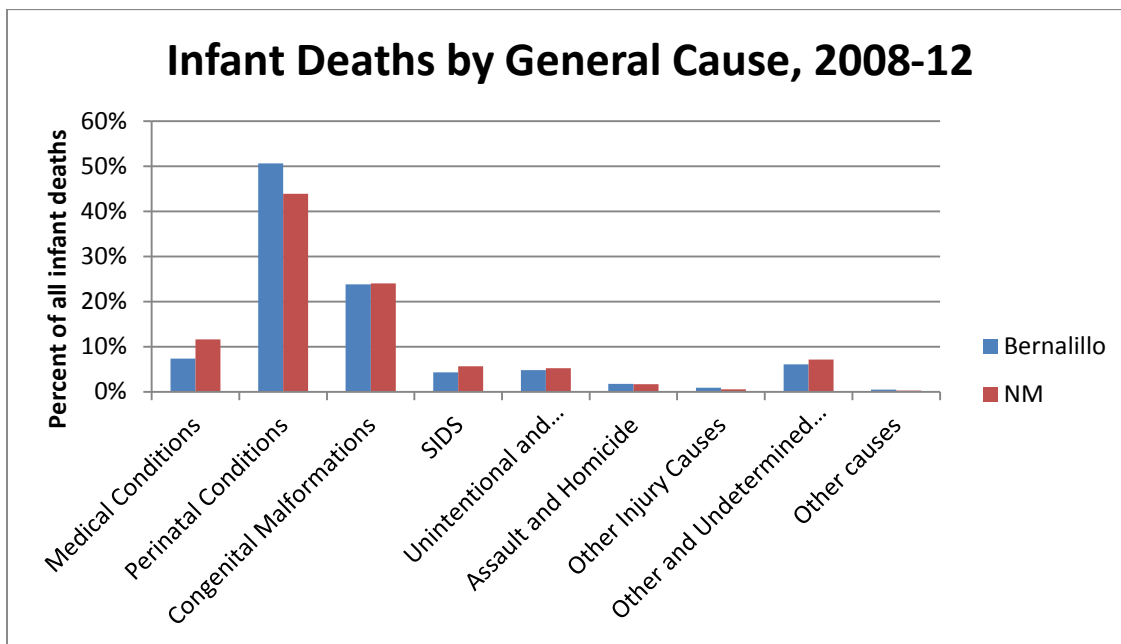

Leading Causes of Infant Deaths, 2008-12

	Bernalillo	Percent	NM	Percent
General Causes of Infant Death	Number of Deaths		Number of Deaths	
Total	231		783	
Medical Conditions	17	7%	91	12%
Perinatal Conditions	117	51%	344	44%
Congenital Malformations	55	24%	188	24%
SIDS	10	4%	44	6%
Unintentional and Accidental Injury	11	5%	41	5%
Assault and Homicide	4	2%	13	2%
Other Injury Causes	2	1%	4	1%
Other and Undetermined Causes	14	6%	56	7%
Other causes	1	0%	2	0%
		100%		100%

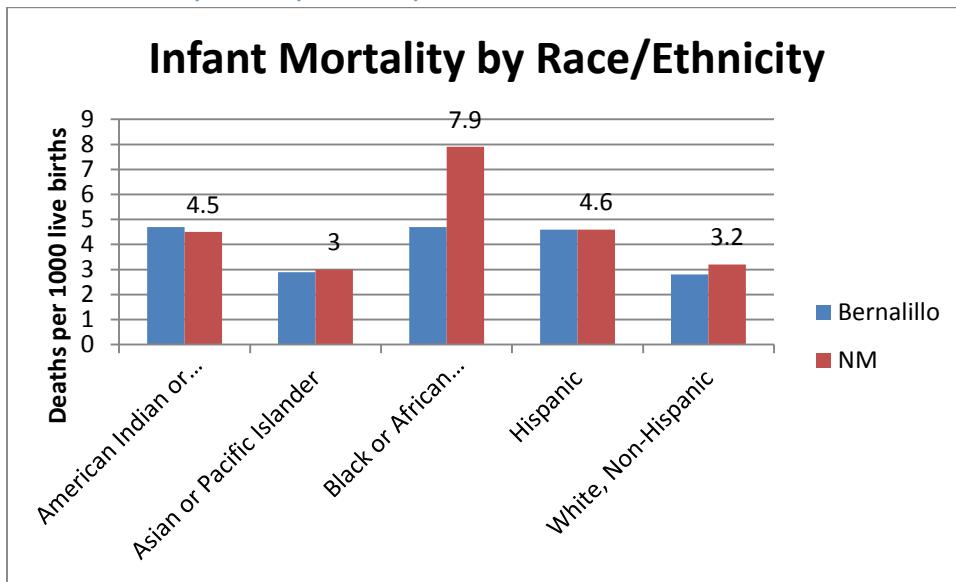

Medical conditions refer to diseases and conditions of the infant

Perinatal Condition refer to short gestation and problems during pregnancy and immediately after delivery

SIDS--Sudden infant death syndrome.

Infant Mortality Rate by Ethnicity

Births by Trimester Prenatal Care Began

Prenatal care in the first three months helps catch problems early and affords opportunity for education of mothers. It also indicates access to health care services. Prenatal care is available through Medicaid.

Harding and De Baca Counties had 5 and 12 births respectively, so their percentages may not be reliable.

	American Indian	Asian/Pacific Islander	Black/Af. American	Hispanic	White	All
Bernalillo County	47.7%	62.7%	54.8%	56.3%	67.6%	59.1%
NM	47.5%	62.6%	54.6%	57.8%	65.5%	58.7%

Insurance Coverage

HEALTH INSURANCE COVERAGE	Bernalillo	Percent	NM	Percent
Civilian non-institutionalized population	654,653	100%	2,021,099	
With health insurance coverage	543,423	83%	1,624,065	80.1%
With private health insurance	402,609	62%	1,129,173	56%
With public coverage	210,323	32%	721,310	36%
No health insurance coverage	111,230	17%	397,034	20%
