

## Harding County

The Harding County Health Council, started in 2005, is striving to provide needed medical information and services for our citizens especially our elderly residents. The Council has held two health fairs, one in April and the other one in October until COVID-19 struck. Health professionals are invited to attend. Health information, guidance, and products are available.

The county's only health clinic is open on 2 days of the week and provides ambulatory medical services, laboratory management, chronic disease management and medical referrals as needed. The county has 3 separate EMS rescue units who respond to any local emergency medical calls.

The council continues to tackle the transportation problems encountered by our elderly as they try to maintain their health, independence and quality of life.

We are also committed to assisting our county veterans to obtain needed health & behavioral assistance through the NMVA system without the additional problem of transportation.

**Council Members

Mary Laumbach at the above cell phone #**

## COVID-19 RESPONSE

**Problems that the Council is committed to addressing:**

- 1. Lack of access to health care for county citizens**
- 2. Lack of medical/behavioral services for county veterans**
- 3. Lack of transportation to and from health services for county citizens**

**Kimberly, Bobby, Mary, Kris  
April 2022  
Evaluation of services for our  
County Veterans**

**The members of the Harding County Health Council are committed to assist with vaccinations of county residents.**

**We do collaborate with our county manager, NM Dept of Health, El Centro Family Health-Roy Clinic and our local EMT's to provide this important vaccine to any county resident who requests it.**

**Interested individuals are encouraged to register at:**

**<https://cvvaccine.nmhealth.org>**

**Individuals needing help with the registration process may dial 1-855-600-3453, press option 0 for vaccine questions then option 4 for tech support.**

### **PHI Air Medical**

**Harding County has provided all residents with access to emergency air medical transport.**
