

Care Coordination

CMS social workers assist clients to coordinate health, medical and other community resources as they develop and meet child and family goals. Families participate as partners in decision-making regarding their children's medical care and other services. Services are coordinated in partnership with the local primary care provider / medical home.

Talking with a CMS social worker can help families communicate with the child's primary care physician and obtain the medical and educational services that their child needs.

How Can Someone Apply?

You can:

Write:

Children's Medical Services
2040 South Pacheco Street
Santa Fe, NM 87505

Children's Medical Services

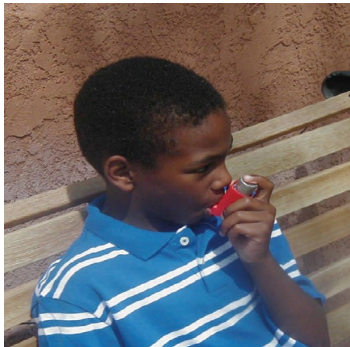

Keeping Children Healthy

What is Children's Medical Services

Children's Medical Services (CMS) program provides services for the prevention, diagnosis and treatment of disabling conditions in children. It is a statewide program within the Department of Health, Public Health Division. CMS serves children from birth to 21 with chronic illnesses or medical conditions that require surgical or medical treatment.

Children/youth are medically eligible based on a diagnosis from a doctor.

Who is eligible: Children under 21 years who:

- Are residents of New Mexico
- Have a chronic illness or disability covered by the CMS Program
- Are within financial guidelines (for CMS payment/coverage only)

Examples of covered conditions:

Cancer
Congenital Heart Disease
Cardiomyopathy
Hydrocephalus and other brain anomalies
Diabetes
Chronic Rheumatic conditions
Epilepsy
Cystic Fibrosis
Asthma
Most eye disorders
Renal disease
Cleft lip and palate
Congenital anomalies
Genetic and Metabolic disorders
Hearing Loss
Chronic ear/throat/sinus infections
Blood disorders
Thyroid disorders
Neurological disorders (cerebral palsy, transverse myelitis, spina bifida)
Long term effects of severe burns
Chronic, severe skin disorders
Chronic liver, gallbladder, pancreas or GI disorders

*The conditions listed above are not a complete list. If you have questions about a specific diagnosis, contact a CMS Social Worker

What Services are Available?

CMS offers limited medical coverage, multidisciplinary pediatric specialty clinics, information and referral, and care coordination.

Medical Coverage

Services covered are specific to the diagnosis but may include payment for diagnostic services, hospitalizations, physician's services, and some therapies. Children must be both medically and financially eligible (except for diagnostic services.) To learn more call your local CMS office.

Multidisciplinary Pediatric Specialty Clinics

CMS sponsors community-based clinics throughout the state. Specialties include: asthma, cleft palate, cardiology, genetics, metabolic, endocrine, nephrology, neurology, cystic fibrosis and GI. Check with your local CMS office to see which clinics are in your area. There are no financial requirements for these services, but insurers of clients not financially covered by CMS are billed for clinic services.
